About TNEA counselling

TNEA stands for Tamil Nadu Engineering Admissions. It is the single-window counselling process run by the Directorate of Technical Education (DoTE), Government of Tamil Nadu, through tneaonline.org, for admission to B.E. and B.Tech degree programmes in government, government-aided and self-financing engineering colleges across Tamil Nadu. TNEA is entirely online and consists of registration, fee payment, certificate verification, random number allotment, rank list publication, choice filling, seat allotment, and confirmation of the allotted seat.

TNEA does not use a separate entrance examination. Admission is based purely on Class 12 (HSC) marks in Physics, Chemistry and Mathematics. The TNEA cutoff is calculated out of 200 using the formula: Mathematics marks divided by 2, plus Physics marks divided by 4, plus Chemistry marks divided by 4. Mathematics therefore contributes a maximum of 100 marks, Physics a maximum of 50 marks, and Chemistry a maximum of 50 marks, giving a maximum cutoff of 200. For example, a candidate scoring Mathematics 100, Physics 90 and Chemistry 80 has a TNEA cutoff of 100/2 + 90/4 + 80/4 = 50 + 22.5 + 20 = 92.5.

Candidates are ranked by this cutoff mark. When two or more candidates have the same cutoff mark, ties are broken in order using: marks in Mathematics, then marks in Physics, then marks in the optional subject, then the older candidate by date of birth, and finally the randomly allotted number. Every registered candidate is assigned a 10-digit random number specifically for this tie-breaking purpose.

TNEA reservation follows Tamil Nadu communal reservation categories: OC (Open Competition), BC (Backward Class), BCM (Backward Class Muslim), MBC (Most Backward Class and Denotified Communities), SC (Scheduled Caste), SCA (Scheduled Caste Arunthathiyar), and ST (Scheduled Tribe). A separate 7.5 percent horizontal reservation applies to eligible government school students, for whom counselling is conducted ahead of general counselling. Cutoff marks and closing ranks differ for each community, which is why the SKCET cutoff tables in this document are broken down by community.

A TNEA cutoff rank for a branch in a college means the maximum (numerically highest) rank that was allotted a seat in that branch, in that college, for that community. A student whose rank is numerically lower (better) than the previous year’s closing rank has a reasonable chance in that branch, though cutoffs shift each year with the number of applicants, seat availability and overall performance trends.

SKCET admission procedure

Admission to B.E. and B.Tech programmes at SKCET under the government quota is through TNEA counselling. The steps are: (1) Registration on the TNEA portal with name, father's name, mobile number and email address - all further communication about TNEA counselling uses the mobile number and email given at registration. (2) Payment of the application fee, which is Rs. 500 for General and OBC candidates and Rs. 250 for SC and ST applicants. (3) Entry of personal details including nativity, nationality, community category and qualifying examination marks. (4) Verification and submission of the completed form - candidates must check all details carefully because no corrections are allowed at later stages. (5) Allotment of a 10-digit random number used to resolve ties in the merit list.

During SKCET and TNEA counselling, candidates pay an initial fee of Rs. 5,000 towards college admission, reduced to Rs. 1,000 for SC and ST candidates, and then rank their college and branch preferences in order of choice.

Documents required in original for certificate verification at SKCET and TNEA counselling: High school and higher secondary (Class 10 and Class 12) mark sheets, Transfer Certificate, Nativity Certificate where applicable, Community or category certificate, and a photo identity proof such as Aadhaar card, election voter ID or driving licence.
